Index of Subjects

Volume 2, 1986

Abdomen, CT-guided percutaneous interventional procedures and ultrasound, 86
Abruptio placentae with massive hemorrhage protruding into the amniotic cavity, ultrasound visualization (case report), 161
Acquired immune deficiency syndrome, health care profession and, 104
Aneurysm
  pseudo-, of femoral artery, duplex ultrasound demonstrating (case report), 338
  ventricular, left posterior, echocardiographic assessment (case report), 93
Arteries
  carotid
    detection of disease by duplex ultrasound, 63
    duplex sonography in, 2
  femoral, pseudoaneurysm, duplex ultrasound demonstrating (case report), 338
Ascites, fetal, isolated, and cryptorchidism (case report), 157
Atrium, left, tumor extension via pulmonary veins (case report), 333
Attenuation, and scattering, in tissue characterization, 145

Biometry, retinal detachment found during (case report), 154
Book reviews
  The anatomy workbook: a coloring book of human regional and sectional anatomy, 358
  Basic Doppler echocardiography, 299, 358
  Color atlas of real-time two-dimensional Doppler echocardiography, 298
  Echocardiography, 298
  Principles of interpretation in echocardiography, 53
  Ultrasound exam review: sonographers self-assessment guide, 174
  Ultrasound physics and instrumentation, 53
Breasts. *See* Mammography

Carcinoma, hepatocellular, echocardiographic detection and intracardiac extension (case report), 278
Cardiomyopathy, hypertrophic, viewed by M-mode, 2D, and Doppler echocardiography (student paper), 24
Carotid artery disease
  detection by duplex ultrasound, 63
  duplex sonography in, 2
Chorionic villus, sampling, ultrasound in, 135
Cryptorchidism, and isolated fetal ascites (case report), 157
Cyst
  branchial, diagnostic challenge (case report), 39
  hepatic, symptomatic, percutaneous treatment (case report), 282

Diagnostic challenge (case reports)
  branchial cyst, 39
  holoprosencephaly and omphalocele, 291
  renal disease, 225
  transfusion syndrome, 164
  vaginal vault distention, 224
Doppler. *See* Echocardiography, Doppler

Echocardiography
  2D, M-mode, and Doppler, hypertrophic cardiomyopathy viewed by (student paper), 24
  Doppler
    cardiac, 183
    M-mode, and 2D, hypertrophic cardiomyopathy viewed by (student paper), 24
  M-mode, 2D, and Doppler, hypertrophic cardiomyopathy viewed by (student paper), 24
  ventricular aneurysms assessed by (case report), 93
Education
  course syllabus, developing, 49
  game (education forum), 109
  and the law (education forum), 171
  self-study document, preparing (education forum), 237
  test questions, writing (education forum), 294
Educators, and the law (education forum), 171
Endocarditis, tricuspid, in a patient with retained transvenous pacemaker (case report), 35
Entrepreneurialism in sonography (issues), 165, 227
Equipment, real-time, quality assurance, 121

False-positive findings, solid testicular lesions, 19
Family-centered sonography (issues), 43, 96
Fetus
  heart evaluation, 322
  malformation associated with trisomy 18, ultrasound detection (case report), 219

Hancock bioprosthesis, tricuspid stenosis of (case report), 287
Heart
  atrial thrombus in neonate, echocardiographic diagnosis (case report), 336
  tumor extension via pulmonary veins (case report), 333
Hemorrhage, into amniotic cavity, with abruptio placentae, ultrasound visualization (case report), 161
Holoprosencephaly, alobar, and omphalocele (case report), 291

Imaging, statis, survey on (techniques), 41

Kidney
  function and disease processes, laboratory values associated with, 206
  multicystic, dysplastic disease, bilateral (case report), 226

Index of Subjects

Volume 2, 1986

Abdomen, CT-guided percutaneous interventional procedures and ultrasound, 86
Abruptio placentae with massive hemorrhage protruding into the amniotic cavity, ultrasound visualization (case report), 161
Acquired immune deficiency syndrome, health care profession and, 104
Aneurysm
  pseudo-, of femoral artery, duplex ultrasound demonstrating (case report), 338
  ventricular, left posterior, echocardiographic assessment (case report), 93
Arteries
  carotid
    detection of disease by duplex ultrasound, 63
    duplex sonography in, 2
  femoral, pseudoaneurysm, duplex ultrasound demonstrating (case report), 338
Ascites, fetal, isolated, and cryptorchidism (case report), 157
Atrium, left, tumor extension via pulmonary veins (case report), 333
Attenuation, and scattering, in tissue characterization, 145

Biometry, retinal detachment found during (case report), 154
Book reviews
  The anatomy workbook: a coloring book of human regional and sectional anatomy, 358
  Basic Doppler echocardiography, 299, 358

Breasts. *See* Mammography

Carcinoma, hepatocellular, echocardiographic detection and intracardiac extension (case report), 278
Cardiomyopathy, hypertrophic, viewed by M-mode, 2D, and Doppler echocardiography (student paper), 24
Carotid artery disease
  detection by duplex ultrasound, 63
  duplex sonography in, 2
Chorionic villus, sampling, ultrasound in, 135
Cryptorchidism, and isolated fetal ascites (case report), 157
Cyst
  branchial, diagnostic challenge (case report), 39
  hepatic, symptomatic, percutaneous treatment (case report), 282

Diagnostic challenge (case reports)
  branchial cyst, 39
  holoprosencephaly and omphalocele, 291
  renal disease, 225
  transfusion syndrome, 164
  vaginal vault distention, 224
Doppler. *See* Echocardiography, Doppler

Echocardiography
  2D, M-mode, and Doppler, hypertrophic cardiomyopathy viewed by (student paper), 24
  Doppler
    cardiac, 183
    M-mode, and 2D, hypertrophic cardiomyopathy viewed by (student paper), 24
  M-mode, 2D, and Doppler, hypertrophic cardiomyopathy viewed by (student paper), 24
  ventricular aneurysms assessed by (case report), 93
Education
  course syllabus, developing, 49
  game (education forum), 109
  and the law (education forum), 171
  self-study document, preparing (education forum), 237
  test questions, writing (education forum), 294
Educators, and the law (education forum), 171
Endocarditis, tricuspid, in a patient with retained transvenous pacemaker (case report), 35
Entrepreneurialism in sonography (issues), 165, 227
Equipment, real-time, quality assurance, 121

False-positive findings, solid testicular lesions, 19
Family-centered sonography (issues), 43, 96
Fetus
  heart evaluation, 322
  malformation associated with trisomy 18, ultrasound detection (case report), 219

Hancock bioprosthesis, tricuspid stenosis of (case report), 287
Heart
  atrial thrombus in neonate, echocardiographic diagnosis (case report), 336
  tumor extension via pulmonary veins (case report), 333
Hemorrhage, into amniotic cavity, with abruptio placentae, ultrasound visualization (case report), 161
Holoprosencephaly, alobar, and omphalocele (case report), 291

Imaging, statis, survey on (techniques), 41

Kidney
  function and disease processes, laboratory values associated with, 206
  multicystic, dysplastic disease, bilateral (case report), 226

Law, and educators (education forum), 171
Liability, and medical responsibility, 232, 353
Liver, cyst, symptomatic, percutaneous treatment (case report), 282

Mammography, scanners for, hand-held real-time, 266
Meetings, planning (issues), 348

Newborns, left atrial thrombus in, echocardiographic diagnostic (case report), 336

Omphalocele, and alobar holoprosencephaly (case report), 291
Ophthalmology. *See also* Retina
  orbital evaluation, role of ultrasound in, 255

Pacemaker, transvenous, retained, tricuspid endocarditis in a patient with (case report), 35
Pregnancy
  abruptio placentae with massive hemorrhage protruding into the amniotic cavity, ultrasound visualization (case report), 161
  ectopic, cervical, ultrasonographic evaluation (student paper), 150
  fetal heart evaluation, 322
  intrauterine and tubal ectopic, coexisting (case report), 31
  tubal ectopic and intrauterine, coexisting (case report), 31
Procedures, developing a manual of standards (education forum), 356
Prosthesis, Hancock, tricuspid stenosis (case report), 287
Prune belly, an unusual case (case report), 157
Pseudoaneurysm, of femoral artery, duplex ultrasound demonstrating (case report), 338
Pulmonary veins, tumor extension via, into left atrium (case report), 333
Pyloric stenosis, hypertrophic, sonography of, 251

Quality assurance, for real-time ultrasound equipment, 121

Retina, detachment, found during routina biometry (case report), 154

Scanners, hand-held, real-time, 266
Scanning protocols (techniques), 343
Scattering, and attenuation, in tissue characterization, 145
Society of Diagnostic Medical Sonographers
  1986 Professional Profile, descriptive statistics, 271, 328
  scanning protocols, 343
Sonographers
  and medical consumers (editorial), 61
  multicompetent (editorial), 119
  performance and cognitive abilities, study correlating, 13
Sonography
  and CT, role in urosepsis, 141
  duplex, carotid artery disease
    detection by, 63
    introduction to, 2
  entrepreneurial (issues), 165, 227
  family-centered (issues), 43, 96
  obstetric (issues), 96
  real-time, "extended vision," 309
Spleen, focal lesions, sonographic spectrum, 315
Syllabus, developing, 49

Terminology review, 297
Testicular lesions, solid, false-positive sonograph of, 19
Testing, writing questions (education forum), 294
Thrombus, atrial, in neonate, echocardiographic diagnosis (case report), 336
Tissue characterization, clinical applications, 145
Tomography, computed
  and sonography, role in urosepsis, 141
  and ultrasound, percutaneous interventional procedures of the abdomen, 86
Transfusion syndrome, twin-to-twin, diagnostic challenge (case report), 164
Trisomy 18, fetal malformations associated with, ultrasound detection (case report), 219

Ultrasound. *See also* Sonography
  physical terms, 51
Urinary tract, lower, ultrasound, 74
Urosepsis, CT and sonography, role in, 141

Vaginal vault distention with urine, diagnostic challenge (case report), 224
